
Executive Summary

1

Executive summary

Slideworks guide

What:

One-page summary providing a concise overview of the business case. Highlight the key points, including the problem or opportunity, proposed solution, and expected benefits

Why:

Grab your audience's attention up front and paint a compelling story so they are predisposed to what your "answer" is and what they need to decide on

How:

- Use situation-complication-resolution framework to draft structure
- Briefly describe the overall context (**situation**)
- State problem / opportunity your business case will address (**complication**)
- Describe your intended solution and potential other options you reviewed, if relevant (**resolution**)
- Briefly list benefits including financial benefits like ROI or NPV (**resolution**)
- Briefly describe next steps (**resolution**)

Executive summary

Vision	[Insert vision for proposed project including qualitative and quantitative benefits]
Strategic objective	[Insert strategic objective of project and how it fits into overall company or BU/team strategy. This can also be business need]
Solution	[Insert brief description of suggested solution]

Executive summary

Business need: [Insert main business problem or opportunity]

- [Supporting information in bullet points]
- [Supporting information in bullet points]
- [Supporting information in bullet points]

Suggested solution: [Insert high-level solution]

- [Supporting information in bullet points]
- [Supporting information in bullet points]
- [Supporting information in bullet points]

Path forward: [Insert main timeframe for implementation e.g., “Project expected to take 7 months”]

- [Supporting information in bullet points]
- [Supporting information in bullet points]
- [Supporting information in bullet points]

Immediate next steps: [Insert next steps or to-dos]

Executive summary

Problem

- [Insert background/reasons for starting project]
- [Insert bullet points on business need/opportunity/problem]
- [Insert bullet points on business need/opportunity/problem]
- ...

Solution

We have identified three possible options:

1. [Insert option 1]:

- [Insert description and main stats in bullet points]
- [Insert description and main stats in bullet points]

2. [Insert option 2]:

- [Insert description and main stats in bullet points]
- [Insert description and main stats in bullet points]

3. [Insert option 3]:

- [Insert description and main stats in bullet points]
- [Insert description and main stats in bullet points]

Recommendation and next steps

We recommend option [insert]

- [Insert reason(s) why]
- [Insert reason(s) why]
- [Insert reason(s) why]

Project can be implemented over [xx] months

- [Insert more details e.g., start date, teams or what needs to be clarified further]
- [Insert more details e.g., start date, teams or what needs to be clarified further]
- [Insert more details e.g., start date, teams or what needs to be clarified further]

Immediate next steps:

- [Insert next steps]

Executive summary

Problem:

[Insert brief description of problem, 2-3 lines max]

Solutions:

Options	Details	Benefits	NPV / ROI
Option 1: [Insert name of option 1 e.g., “Fully outsourced”]	[Insert description of solution in bullet points] [Insert description of solution in bullet points] [Insert description of solution in bullet points]	[Insert description of financial and other benefits in bullet points] [Insert description of benefits in bullet points] [Insert description of benefits in bullet points]	[Insert estimated NPV and/or ROI, if relevant]
Option 2: [Insert name of option 2]	[Insert description of solution in bullet points] [Insert description of solution in bullet points] [Insert description of solution in bullet points]	[Insert description of financial and other benefits in bullet points] [Insert description of benefits in bullet points] [Insert description of benefits in bullet points]	[Insert estimated NPV and/or ROI, if relevant]
Option 3: [Insert name of option 3]	[Insert description of solution in bullet points] [Insert description of solution in bullet points] [Insert description of solution in bullet points]	[Insert description of financial and other benefits in bullet points] [Insert description of benefits in bullet points] [Insert description of benefits in bullet points]	[Insert estimated NPV and/or ROI, if relevant]

Recommendation:

[Insert recommendation and highlight next steps]

Executive summary

Project background and benefits

- [Insert brief description of context and business need]
- [Insert expected tangible and intangible benefits of implementing project]
- [Insert expected tangible and intangible benefits of implementing project]
- [Insert expected tangible and intangible benefits of implementing project]

Costs, team, and setup

Project costs:

[Insert expected costs]

Project sponsor:

[Insert name]

Number of FTEs needed:

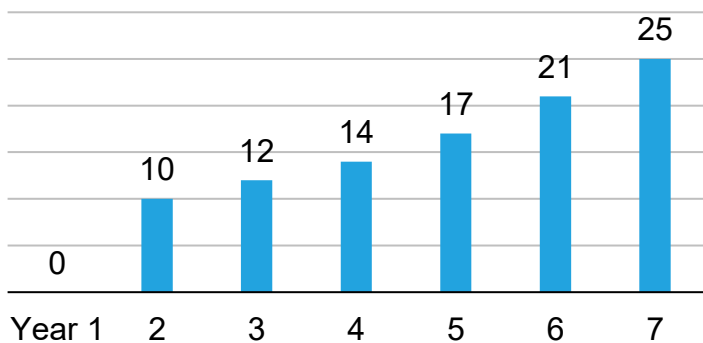

[Insert number]

Project manager:

[Insert name]

Expected outcome

Revenue generated, [unit]

Net present value (NPV):

[Insert NPV]

Return on investment (ROI):

[Insert ROI]

Executive summary

1

Problem/opportunity

[Summarize the underlying problem or opportunity this business case is responding to]

2

Solution

[Summarize the suggested solution to the problem / opportunity]

3

Outcomes

[Summarize the outcomes and benefits that can expected from successfully addressing the problem / opportunity]

4

Strategic rationale

[Summarize the strategic rationale for addressing the problem / opportunity, including how this feeds into the overall company strategy]

We have evaluated three options for [insert problem]

	A [Insert option A]	B [Insert option B]	C [Insert option C]
Main approach	[Insert brief description of option A]	[Insert brief description of option B]	[Insert brief description of option C]
[Insert relevant dimension e.g., cost]	[Insert brief description of how option A works in this dimension]	[Insert brief description of how option B works in this dimension]	[Insert brief description of how option C works in this dimension]
[Insert dimension]	[Insert brief description of how option A works in this dimension]	[Insert brief description of how option B works in this dimension]	[Insert brief description of how option C works in this dimension]
[Insert dimension]	[Insert brief description of how option A works in this dimension]	[Insert brief description of how option B works in this dimension]	[Insert brief description of how option C works in this dimension]
[Insert dimension]	[Insert brief description of how option A works in this dimension]	[Insert brief description of how option B works in this dimension]	[Insert brief description of how option C works in this dimension]

Based on this, we recommend moving forward with option [insert]
